

HCM PRICING MODEL

EPAY HUMAN CAPITAL MANAGEMENT

Pricing Simplified: Pay One Straightforward Monthly Price

EPAY Human Capital Management simplifies HR by unifying all the essential systems and services in one seamless solution. Our pricing model works the same way: you pay one affordable monthly price, and everything's included.

No End-of-Month Surprises

Many HCM providers use à la carte pricing models, so their proposals sound great up front. The hitch: they tack on a slew of transaction-based monthly fees that you can't predict, let alone budget for. Tired of getting hit with unexpected charges? There's a better way.

Welcome to Transparency

Never feel nicked and dimed again. As an EPAY customer, you'll pay one economical, all-encompassing price—one fixed rate per employee per month. You'll be able to plan better, budget confidently, and feel a whole lot better about your human capital management provider.

Unlimited Admin Licenses

Some pricing models include extra fees for administrators or power users. Our pricing is simple—pay one easy price per employee per month.

Unlimited Self-Service

It amazes us that some vendors charge extra for employee self-service access. Our self-service portal is customized for you and available at no extra cost.

Unlimited Reports

Charging per report like some vendors do is like penalizing you for overseeing your business. Our standard and ad-hoc reports are all yours to use.

Complete Tax Filings

No need to pay more for us to handle your tax filings, no matter how many jurisdictions are involved. We'll handle your W2s and 1099s too. All included.

Complete Payroll Processing

Do you get billed extra for every check that's signed...every envelope that's stuffed...every electronic pay stub? With EPAY, you don't have to.

Complete Garnishment Processing

Some vendors charge a separate fee for every garnishment processed, every single pay period. Not us!

When It Comes to Pricing, Less Is More

At EPAY, we pride ourselves on offering exceptional value. That's why our full-service solutions include built-in cost-efficiencies, advanced time and labor management capabilities, and free customer support, 24/7.

Get more, don't pay more. Request a demo today!
