

## Small and Flexible. Can Fit Anywhere and Everywhere.

### The Time Clock that Fits Anywhere

You won't believe how powerful—or how rugged—the ultra-compact WalTer™ S18 really is. Plus, it conforms to any worksite: mount and lock it on a wall, or place it in a versatile table stand.

### The Time Clock that Goes Everywhere

Do your work crews migrate to a new worksite each time a project is completed? Well, the WalTer™ S18 can, too. It's easy to reconfigure for each new job and crew. It's flexible!

### Say Goodbye to Time Theft

The WalTer™ S18 features cutting-edge facial recognition technology that verifies employee identity and makes buddy punching a thing of the past.

### Flexible RFID Reader

As an alternative, it also has an onboard RFID reader. It works with most RFID cards, so if you like the ones you're currently using, you'll be up and running in no time.

### Secure, Encrypted Internal Database

That WalTer™ S18 is completely locked down. That means that we safely store your employee data for up to 30 days within the local, encrypted database.

### No Power, No Problem

In the event of a power outage, the WalTer™ S18 keeps working thanks to internal and optional external batteries. If you lose your cellular connection, you won't lose data—the WalTer™ S18 stores your data until you sync again.

## Highlights

- Slim and compact—ideal for any worksite
- Portable and reconfigurable; goes where the work is
- Wall mount or use with the WalTer™ S18 table stand
- Facial recognition with photosensitive sensor
- RFID technology
- Plug and play. Pre-configured to meet your needs—no IT required!
- Ruggedly constructed to withstand rough handling
- Works without electric power
- Multilingual: English, Spanish, Arabic, Polish & French language options
- Free technical support 24/7
- Free maintenance & software upgrades
- Available for purchase and rent with buyout option

## Clocking In and Out Is a Snap

Your time clock shouldn't slow you down! With the WalTer™ S18, workers can punch in and out quickly and easily, thanks to powerful processing and a simple user interface. And because we pre-configure your time clocks before shipping them to your worksites, installation is a breeze. It's truly plug and play.

## Lower Your Labor Costs

EPAY helps lower payroll costs by eliminating time rounding and manual data entry errors—and by ensuring your time and attendance policies are enforced via manager alerts and dashboard flagging. Expect to lower your costs by up to 5% or more.

## Onboard Features Improve Engagement

Your workers will love having access to their time cards, pay stubs, attendance and time-off balances right from the clock—not to mention requesting PTO. Managers can also save time by delivering messages to employees when they clock in and out.

## Prevent Fraudulent Workers' Comp Claims

"Did you have a safe workday?"—that's a question the WalTer™ S18 can ask when workers punch out after every shift. If someone answers yes, managers can jump on it immediately. If they answer no, but later file an out-of-the-blue Worker's Compensation claim, your records can help you get to the truth of the matter.

## Increase Safety Measures

Dynamic punch questions allow you to ask your workers custom questions using WalTer™ S18 at punch-in—before they start their shift, or at punch-out—after they've completed their shift.

## Tech Specs

### Network/Communication

- Wi-Fi (IEEE 802.11a/b/g/n/ac)
- LAN (Intel i211AT Gigabit Ethernet)
- Cellular (4G, LTE modem with SIM card)

### External I/O:

- Ethernet connector (RJ-45)
- Power adapter connector

### Build-in Hardware Components:

- 7" LCD high resolution display with touch screen (1280x800, 400 Nits)
- Digital touchpad
- Front Facing Dual Camera (3MP, 640x480)
- RFID Reader 13.56 MHz

### External AC/DC Power Adapter:

- AC Input: 100-240 VAC, 1.2 A, 50-60 Hz
- DC Output: 12 V, 3 A

### Operating System:

- Windows 10 IoT Enterprise
  - 2 GB DR3L Memory
  - 32 GB MLC Storage

### Optional Accessories

- Locking Wall Mount
- Bracket for Locking Wall Mount
- External battery
